## Summary of Decisions Requested: Errors

| Submitter Name                  | Submission point number | Plan Provision                                                                                               | Support /oppose | Summary of decision requested                                                                                                                                                                             |
|---------------------------------|-------------------------|--------------------------------------------------------------------------------------------------------------|-----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Beef and Lamb NZ                | S311/008                | Sensitive area                                                                                               | Amend           | A sensitive area includes the following:<br>(a) Dwelling house<br>(b) <u>Marae</u><br>(c) Educational facilities...                                                                                       |
| CentrePort Limited (CentrePort) | S121/136                | Rule R212: Dumping of waste or other matter inside sites of significance - non-complying activity            | Amend           | Amend Rule R212 to provide for dredging related deposition or dumping within a scheduled site as a discretionary activity.                                                                                |
| Maypole Environmental Limited   | S143/008                | Rule R48: Stormwater from an individual property - permitted activity                                        | Amend           | Amend Rule 48 to exclude the term “or onto land where it may enter a surface water body” so that such discharges would be captured by Rule 49.                                                            |
| Maypole Environmental Limited   | S143/014                | Policy P42: Protecting and restoring ecosystems and habitats with significant indigenous biodiversity values | Amend           | Amend the plan to ensure the policies are revised to enable and promote public access to wetlands for tourism and education where this access is in accordance with a Wetland Restoration Management Plan |

|                          |          |                                                                         |        |                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|--------------------------|----------|-------------------------------------------------------------------------|--------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Minister of Conservation | S75/078  | Policy P48: Protection of outstanding natural features and landscapes   | Amend  | Amend as follows:<br>(a) avoiding adverse effects of activities on <u>the characteristics and qualities that contribute to the values of</u> outstanding natural features and landscapes, and<br>(b) avoiding significant adverse effects and avoiding, remedying or mitigating other adverse effects of activities on <u>the characteristics and qualities that contribute to the values of</u> other natural features and landscapes. |
| Phillip Walker           | S95/001  | Rule R180: New swing moorings inside Mooring Areas - permitted activity | Oppose | Rule R180: Swing moorings inside Mooring Areas – permitted activity<br><br>A <del>new</del> swing mooring inside a Mooring Area ...                                                                                                                                                                                                                                                                                                     |
| Richard Osborne          | S384/001 | Category 2 surface water body                                           | Amend  | Exclude water races and drains from Category 2.                                                                                                                                                                                                                                                                                                                                                                                         |
| The Oil Companies        | S55/036  | Policy P126: Site dewatering                                            | Oppose | Modify Policy 126 as follows:<br>Localised land subsidence or <u>significant</u> adverse effects of dewatering on existing groundwater users or the flows, levels or quality of surface water shall be minimised.                                                                                                                                                                                                                       |

## Summary of Decisions Requested: Omissions

| Submitter Name                             | Submission point number | Plan Provision                                  | Support /oppose | Summary of decision requested                                                                                                                                                                                                                                                              |
|--------------------------------------------|-------------------------|-------------------------------------------------|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Forest Owner Marketing Services Ltd</b> |                         |                                                 |                 |                                                                                                                                                                                                                                                                                            |
| Forest Owner Marketing Services Ltd        | S435/001                | Plantation forestry harvesting                  | Amend           | The definition should be aligned with the NESPF so it should be considered as plantation forestry an area of at least 1 ha                                                                                                                                                                 |
| Forest Owner Marketing Services Ltd        | S435/002                | Erosion prone land                              | Amend           | Keep the erosion prone land definition as it was in the previous plan ("any land within Area 1 with a slope of greater than 23 degrees; and any land within Area 2 with a slope of greater than 28 degrees") or otherwise use the erosion susceptibility classification contained in NESPF |
| Forest Owner Marketing Services Ltd        | S435/003                | Policy P7: Uses of land and water               | Amend           | Include Forestry as beneficial use of land and water resources.                                                                                                                                                                                                                            |
| Forest Owner Marketing Services Ltd        | S435/004                | Rule R36: Agrichemicals - permitted activity    | Amend           | Change the rule and require the plan to state dependence on the scale and environmental values of the operation                                                                                                                                                                            |
| Forest Owner Marketing Services Ltd        | S435/005                | Rule R42: Minor discharges - permitted activity | Amend           | Avoid any reference of suspended solids limit.                                                                                                                                                                                                                                             |

| Submitter Name                      | Submission point number | Plan Provision                                                                                  | Support /oppose | Summary of decision requested                                                                                                                                                                                                                                               |
|-------------------------------------|-------------------------|-------------------------------------------------------------------------------------------------|-----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Forest Owner Marketing Services Ltd | S435/006                | Rule R99: Earthworks-permitted activity                                                         | Amend           | Keep it as it was in the previous plan or align it with NESPF rule for earthworks. Leave the quantity of earthworks as they are now by requiring an erosion and sediment control plan on erosion prone land and available to the council on request (as NESPF)              |
| Forest Owner Marketing Services Ltd | S435/007                | Rule R101: Earthworks and vegetation clearance - discretionary activity                         | Amend           | It needs to be clarified and re-worded.                                                                                                                                                                                                                                     |
| Forest Owner Marketing Services Ltd | S435/008                | Rule R102: Plantation forestry harvesting on erosion prone land - permitted activity            | Amend           | [Provide for plantation forestry harvesting that is not on erosion prone land as a permitted activity; remove the requirement for a harvest plan/notification for small scale operations; amend condition (c) to require slash removal where safe and practicable to do so] |
| Forest Owner Marketing Services Ltd | S435/009                | Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity | Amend           | Have a harvesting permitted activity rule for natural wetlands.                                                                                                                                                                                                             |
| Forest Owner Marketing Services Ltd | S435/010                | Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity | Amend           | Allow logs for corduroy temporary crossings on natural wetlands.                                                                                                                                                                                                            |

| Submitter Name                                         | Submission point number | Plan Provision                                            | Support /oppose | Summary of decision requested                                                                                                                 |
|--------------------------------------------------------|-------------------------|-----------------------------------------------------------|-----------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Forest Owner Marketing Services Ltd                    | S435/011                | 5.5.2 Wetlands general conditions                         | Amend           | Reword the condition [c] as "...shall be removed from the river or lake within five working days" to be aligned within NESPF.                 |
| Forest Owner Marketing Services Ltd                    | S435/012                | Rule R114: River crossing structures - permitted activity | Not stated      | Include temporary crossings specific conditions as when the material needs to be removed and that erosion and sediment controls are installed |
| Forest Owner Marketing Services Ltd                    | S435/013                | Rule R115: Culverts - permitted activity                  | Amend           | Reconsider the rule to be aligned with NESPF rule for river crossings/single culverts.                                                        |
| Forest Owner Marketing Services Ltd                    | S435/014                | 13 Maps                                                   | Not stated      | Make free and downloadable all the layers that are included in the GW GIS viewer.                                                             |
